SOCCER RIOTS: TERRORISM: RACE ATTACKS...

OPEN YOUR EYES TO MEDIA LIES!

DAY AFTER DAY the newspapers and TV are full of stories seeking to link the National Front with senseless acts of violence. The rioting at the Liverpool v Juventus game in Brussels was only one of a whole series of appalling incidents for which the NF has become a scapegoat. The mass media today take every possible opportunity to attack the National Front. And the total lack of evidence doesn't stop them!

REMEMBER the 'Deptford Fire Massacre', where the NF was blamed for the death of 13 West Indians?

FACT: Police are now looking for a Black man who had a grudge against a fellow party-goer!

REMEMBER the pictures of the Asian with the 'NF symbol' carved on his chest by 'racist thugs'?

FACT: He was later convicted of wasting police time as he had scratched 'NF' on himself to get out of exams!

REMEMBER the allegations that the National Front was linked to 'foreign terrorist groups'?

FACT: The National Front is a democratic British political party. It is dedicated to winning power peacefully through the ballot box. The NF condemns terrorism without reservation — and calls for the restoration of the death penalty for terrorist murderers.

BUT OF COURSE THE PRESS AND TV NEVER TELL YOU THE FACTS!

So who are telling the lies about the National Front — and why? There are three main liars. They are:

*THE FOOTBALL BOSSES. Liverpool Football Club Chairman, John Smith, blamed the NF for the Brussels tragedy. He told deliberate and absurd lies to save his own job and to shift the blame from the real culprits — a minority of lunatic, non-political thugs among his team's supporters.

In spite of his accusations, no NF leaflets were found at the game. No 'inflammatory' NF banners were photographed there and no NF members were arrested.

JOHN SMITH LIED TO SAVE HIS OWN SKIN!

*THE MEDIA MASTERS. Anti-British Marxists have gained a great deal of influence in the media. The National Union of Journalists instructs its members not to report activities which show the National Front in a good light, but to take every opportunity to smear White patriots.

The owners of the media are no better! Most of the national papers and broadcasting networks in Britain are controlled by a handful of Zionist millionaires who use their wealth and power to tell the British people what to think.

The National Front is committed to the break-up of these media monopolies and calls for legislation to guarantee the right of reply and equal access to the media. This would end the dictatorship of the press and the power of the media masters.

THEY LIE ABOUT THE NATIONAL FRONT SIMPLY TO MAINTAIN THEIR CONTROL OVER PUBLIC OPINION!

A VISON OF A BRITISH BRITAIN

*POLITICAL OPPONENTS. The National Front is a fearless critic of not only Immigration but also of other economic and social injustices which oppress our people.

We have a vision of a British Britain — a free land of opportunity for all, but unearned privilege for none. This contrasts with the exploitation, division and envy promoted by the Old Gang political parties, who watch in alarm as our message spreads and more and more Britons rally to our banner!

The Tory, Labour and Liberal/SDP Alliance parties are desperate to stop the growth of our young movement. They don't give a damn about Britain or the British people!

THEY LIE ABOUT THE NATIONAL FRONT SIMPLY TO PROTECT THEIR WEALTH AND POWER!

EDITORIAL No. 68. JULY 1985.

Ambassadors for the National Front

"THE QUIET, REASONABLE, ordinary, decent, civilised racialist is always the most worrying".

That's coloured singer Labbi Siffre writing to the Times on 29th May. His words have a clue to the reasons why the National Front gets smeared with causing every conceivable outbreak of violence.

Racialism or 'the awareness of racial differences' comes naturally to the British people because it's common sense. To oppose these natural instincts the multi-racial lobby has tried to suppress those instincts by legislation, associate racialism with feelings of guilt and shame and remove, by criminalisation, the National Front, the only racialist party, from the political arena.

Image

The policies of the National Front appeal to the vast majority of British people. To stop those people joining, helping and voting for the National Front, the multi-racial lobby and its friends in Parliament deny the National Front the rights accorded to other political parties. They deny us access to the media. They deny us our right to hire halls. They deny us the right of reply when lies are told about the National Front and they've raised the election deposit to place a massive financial obstacle in the path to power.

We must fight back despite such overwhelming odds and show to the British people that we are a political party that they can and should feel proud is standing up for them.

Image is something that hasn't concerned past leaderships of the party. They had the attitude, *'we're going to get a bad press anyway so what does it matter'*, the present leadership is different.

Responsibility

Over the last 18 months the National Front has made a concerted effort to improve its image despite a orchestrated campaign by certain newspapers to criminalise the party. To a limited extent our efforts have seen some success. Articles in the Times and Guardian bear witness to this as well as the refusal of many Establishment spokesmen to acknowledge the ridiculous claims that the NF was involved at Brussels.

National Front members are ambassadors of the party and the British people. Their conduct and behaviour is watched very carefully, not only by the media but by millions of British people, all sympathetic to the NF but concerned by its alleged reputation.

A great responsibility rests upon every National Front member. The way they conduct themselves, both politically and socially could play a vital part in the National Front's quest for power.

CONGRATULATIONS NICK AND JACKIE

NICK GRIFFIN, the National Front's Deputy Chairman, was married on Saturday, June 15th to fellow NF member Jacqueline Cook.

The couple had first met while Nick was studying Law at Cambridge University in 1978. Since then Nick has risen through the NF ranks to become the Movement's Deputy Chairman while Jackie has qualified as a State Registered Nurse.

VAUXHALL by-election

Who are you going to vote for?

THE BRITISH people have a clear choice in the forthcoming GLC council by-election in Vauxhall.

Standing for Labour is West Indian mother of four Lorna Boreland. She's pictured below.

West Indian 'momma'.

Standing for the National Front is thirty year-old John Wright. He has lived in Lambeth for 25 years, twenty of them in Brixton. He attended Sudbourne Road Junior School and Tulse Hill Comprehensive.

John Wright. National Front.

John works as an advertising executive for a newspaper. He joined the NF in 1979 and has been campaigning ever since for the rights of the white population in Lambeth.

Make sure you vote for the British party on Thursday July 11th. Vote John Wright – National Front.

HERITAGE VISITS

THE National Front's Heritage Group continues to go from strength to strength under the able direction of Eddy Butler.

Since its first activity, a visit to the recent Renoir Exhibition on the South Bank, the Group has held two more activities. The first was a visit to the British Watercolour Landscapes Exhibition at the British Museum. The second and latest activity was a visit to Berkhamstead Castle in Hertfordshire followed by a trip to St Albans to see the architectural heritage bequeathed to that city by the Romans.

However, although the NF Heritage Group has got off to a good start, it still urgently needs new members. Membership is free and all those wishing to join should contact Eddy Butler, c/o 50 Pawsons Road, Croydon, Surrey CRO 2QF.

FRONTAL ATTACK ON DRUG ABUSE!

THE NATIONAL FRONT'S anti-drugs campaign, launched on May 11th at a Young National Front meeting in central London hit local newspaper headlines up and down the country as 100,000 leaflets were handed out at schools and colleges on Thursday June 6th.

Despite the fact that Fleet Street totally ignored our campaign, no doubt too busy trying to smear the NF with football violence, local newspapers, reported the NF's purge on drug pushers giving the Front some excellent coverage.

Kent NF Region must get the publicity prize with coverage of their campaign spreading across the county for a three week period prior to the 'Day of Action'. Close behind came Croydon, Lancashire, Tyne and Wear, Birmingham, Herts and Beds.

REMOVING

Information concerning drug pushers received has been passed on to the respective police force's drugs division and it's hoped that such action will lead to arrests, showing that the National Front is playing its part in removing the Dealers in Death from Britain's streets.

Front warns the dealers in death

Headline from Kent's Evening News.

★ ★ ★

POLICE JUST WATCH BLACK DRUG PUSHERS

DEALERS IN DEATH, the NF's anti-drugs leaflet has been sent to Kent's Assistant Chief Constable, Tony Coe, after it had upset some members of the public for being anti-police.

The leaflet apportions some of the blame for the heroin problem on the police; "They often make no effort to arrest known pushers because of the risk of public disorder. An easy life for the police means an easy death for many young people".

A *News of the World* report on Sunday 2nd June confirmed the findings of the Front's leaflet.

"Drugs are being sold openly in London streets – while the police stand by unable to step in for fear of sparking off race troubles . . . . . And Scotland Yard admitted they faced a serious "public disorder" problem if they acted with too heavy a hand. . . . . The police turn a blind eye because they're scared of a riot.

"You see them watching from doorways but they daren't go in and do anything. It's like a keg of dynamite. They are no-go areas".

In Sandringham Road, Hackney, we watched a stream of cars pulling up while half a dozen pushers waited to take orders . . . . . The trade goes on between 6 and 8 every evening. And the dealers rake in cash at £500 an hour.

While a solitary policeman stood a few yards from us, we were offered drugs by a tall, bearded West Indian pusher called Martin.

He said: "I can sell you ganja, coke or skag (heroin).

"Just give me your order and I'll be back with as much dope as you want.

"Or I can pass it through your car window." Dealings stopped for a few minutes when a police van pulled up nearby. The pushers went into a pub until it had gone.

Police. Softly, softly.

We found a similar trade going on in All Saints Road, Notting Hill, where we were approached by pushers five times in 17 minutes.

One West Indian offered us heroin at £60 a gramme while a policeman stood in a shop doorway ten yards away.

"He's no problem man", he said, "They come and go. We're always here."

We told Scotland Yard of our findings in both Sandringham Road and All Saints Road.

A spokesman said: "The senior officers in both areas freely admit that these addresses are major drug dealing centres.

"They are attempting to combine firmness with sensitivity – to take action against drug dealing while trying to avoid public disorder.

"With a lot of people hanging around the street corners and the summer just beginning the situation is sensitive". . . . . .

★ ★ ★

DRUGS: GATEWAY TO HELL

IT'S NOT very often that we agree with Dr Robert Runcie, but his remarks on the evils of drugs – made in a speech on June 2nd – are both timely and correct.

For the Archbishop of Canterbury told a church congregation in London: **"You can, I believe, help those who are tempted and who imagine they are taking an exciting short-cut to heaven, to realise that they will in fact be treading a frightening path to the gateway of hell."**

He then went on to note the drugs epidemic in Britain which had spread from America would get even worse!

Concluding his attack on drugs, Dr Runcie noted that not enough had been done to "combat this abuse".

However, whilst his condemnation of the Establishment is right – not everybody is turning a blind eye to the drugs problem which is sweeping Britain. For in May, the National Front launched a campaign against the dealers in death and the NF is determined that it's campaign should continue, until the misery caused by drugs is eliminated once and for all!

NF NEWS Diary

Who's Offensive

RACIALIST GREMLINS are at work again. Residents in Stretford, Manchester have been worried by letters arriving on *'official looking notepaper'* that ask them to be host to a large Asian family.

Re-assuring his constituents however is Labour MP Tony Lloyd who advises "If you receive one of these letters rip it up and throw it away".

Mr Lloyd describes the whole episode as 'offensive'. But he doesn't expand on what he finds offensive. Is it the hoax letter or the fact that the people of Manchester panicked at the thought of having to play host to large Asian families?

Obviously some families in Stretford are in need of 'Racial Awareness Training'.

★ ★ ★

Hero Worship

THE STERN Gang was a group of Jewish terrorists who butchered hundreds of British soldiers in Palestine during the middle and late 1940's

One of its former leaders was Yitzhak Shamir, the Israeli Foreign Minister who told Irish newsmen in Jerusalem recently that during his terrorist days he used the alias Michael; after Michael Collins the infamous IRA murderer *"whose exploits captivated him".*

The second week in June saw the same Mr Shamir chatting cosily with our Prime Minister, Mrs Thatcher, telling her what and what not Israel would accept with regard to the Middle-East peace talks.

Unlike the Jews, we do seem to have short memories.

★ ★ ★

Queer-Bashing

A LETTER of criticism has been received from a reader of *NF News* who says he's worried that the paper is about to launch "a strident campaign against homo-sexuals".

Don't worry Nigel. Although *NF News* is against the £28,000 grant by Camden Council to finance a gay coffee bar and restaurant; against Britain's first Gay Games which are to be held at the Brixton Recreation Centre on September 22nd; against the gay marriage service at St. Luke's Church, Charlton, South London which was broken up by parishioners who called homosexuality 'a sin that is wicked and depraved'; and against "all gay" schools the type of which has been set up recently in New York, we've no intention of starting a queer-bashing campaign.

Just to show our good intentions here's a picture of the new mayor of Islington Labour councillor Bob Crossman and his live in lover Martin McCloghry, the mayoress.

Jungle Book

STRANGE MUSICAL tastes from the Foreign Office when the President of Cameroon visits Geoffrey Howe.

As the president made his entrance, the band struck up "I'm the King of the Jungle, the Jungle V.I.P." in his honour.

IMMIGRATION: THEY STILL KEEP COMING

THE EUROPEAN COURT of Human Rights in Strasbourg has ignored the Government's argument about the "impact on the domestic labour market at a time of high unemployment" and ordered Britain to relax its immigration controls.

The court found that British immigration rules breached the European Convention on Human Rights because of the stricter regulations applying to a woman who wants to bring in a foreign husband compared to a man who wants to bring in a foreign wife.

■ *Third world meal ticket.*

Under the 1981 Nationality Act, women from the Commonwealth who were married to a British citizen before January 1st 1983 have a statutory right of entry. Over 7,000 Asian women settled in Britain last year under this new law.

The order from Strasbourg will lift restriction on 5,500 Asian husbands waiting to join their wives in Britain. 5,500 men to add to the 3½ million already looking for work in Britain.

TRUMPCARD

The 1983 Nationality Act was the Tory's trump card to slow down coloured immigration, but figures show that far from reducing it, the number of people able to settle here, as husbands and fiances, has increased it.

Now we have a court in Europe telling us to take even more immigrants. When is it going to end? Population Concern says Britain has 24 million people too many for its surface area. We have over 5 million coloured immigrants swelling the dole queues and breeding at a rate that is treble that of the indigenous population.

PETRIFIED

Conservative, Labour and Alliance MP's know that the immigrant vote will decide the next General Election. They are petrified to voice their opposition to coloured immigration for fear of losing that vote.

The National Front stands alone in opposition to coloured immigration. It's the only party that campaigns on a policy of a complete halt to coloured immigration and advocates the humane and phased repatriation of those coloured immigrants already here to their land of ethnic origin.

★ ★ ★

*** 2,500 TAMILS have arrived in Britain within the last 6 weeks hoping to settle here.**

** Britain has no responsibility to the Tamils. The original Tamil homeland was the Tamil Nadu area of Southern India, a mere 200 miles from Sri Lanka, the island from which they are now fleeing.*

* Military bases and disused hospitals are to be turned over to Tamils as the detention centres at Ashford, Harmondsworth and Gatwick are reaching capacity.

■ *Over 7,000 Asian women settled in Britain last year.*

*** Sittamtalum Barlarajah of Merton Community Relations Council urged the residents of Wimbledon to accomodate 150 Tamil men newly arrived from Sri Lanka.**

** 50 Tamils are living in a Hindu temple in Efra Road, Wimbledon.*

* A grant of £36,000 from the GLC for a Tamil hotel in central London is being pressed for by GLC leader Ken Livingstone.

* Sri Lanka, formerly Ceylon, became a fully independent self-governing state on February 4th 1948 under the Ceylon Independence Act of 1947.

*** Throughout the current inter-communal violence on Sri Lanka, the island's government has insisted that Tamils who have not broken the law have nothing to fear from returning home. It has also maintained that the troubles have been inspired by Tamil separatist guerilla forces. A massacre of 80 men, women and children, including five Buddhist nuns on May 14th by Tamil terrorists appears to bear the government out. More than 100 people were injured in the attack on the ancient Singhalese capital of Anurahapura.**

* Conservative MP's sat in silence at Westminster on June 4th as Labour MP's demanded that Tamils be given unrestricted access into Britain.

Only Terry Dicks, MP for Hayes and Harlington voiced his disapproval and he was howled down by shouts of 'racist'.

** Home Secretary, Leon Brittan was criticised by Labour MP Max Madden, obviously mindful of the majority of his constituents in Bradford West. He said "It's shameful that the Home Secretary, whose own family sought refuge in Britain, should now slam the door in the face of people from a Commonwealth country trying to do the same thing". The remark brought sniggers from all sides of the house.*

* The Tamils arriving in Britain are not refugees said Mr. Ray McDowall head of the refugee and special cases section of the Home Office. "99% of Tamils arrived in Britain for economic reasons and could no way be labelled genuine refugees.

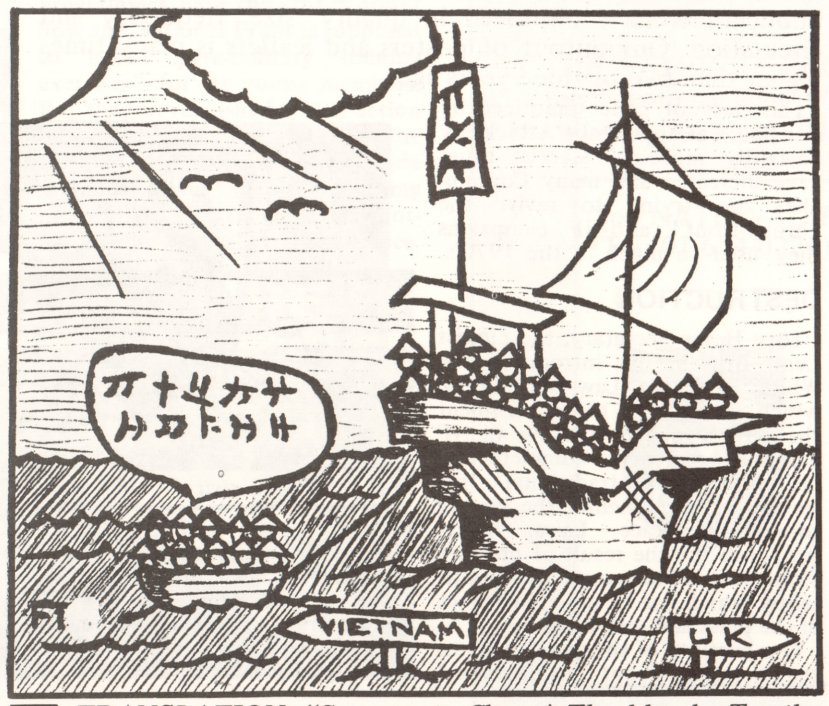
★ ★ ★

More to come

* On June 5th Paul Haitling, refugee administration officer for the United Nations urged the Home Office to take more Vietnamese Boat People. 11,000 at present in Hong Kong are awaiting resettlement.

*** Three out of four Asian doctors seeking work in Britain failed an entry test.**

Many couldn't speak English, and even more failed to meet the medical standards necessary to practise in Britain.



■ **TRANSLATION** *"Step on it Chang! The bloody Tamils will get all the council houses".*

HOUSING CRISIS: EMPTY PROPERTY

THOUSANDS of properties which could be used to house the homeless are standing empty in Britain.

For the last figures available – caculated during the 1981 census – indicated that there was a total of 640,000 empty properties in Britain. Local authorities are thought to own more than 110,000 of them. 30,000 are in London alone!

National Front News **considers this to be nothing short of a national disgrace.**

We believe that Councils should be given powers to levy additional rates on empty private homes, depending on how long they have been vacant.

Councils should also be required to keep a register of all their homes – and potential useful properties – which are empty, so that the homeless can be housed quickly.

This method would stop such scandals whereby housing has been left to rot for years, where, in actual fact, it has been quite habitable.

FORGOTTEN

The housing aid agency, Shelter, are also very critical of local councils. One spokesman declared that many houses stand empty, waiting for council-schemes to get off the ground.

"It is scandalous. Property is forgotten by councils with thousands of people on their waiting lists."

NO HELP FOR NEWHAM'S WHITES

THE CITIZENS' Advice Bureau in Newham has adopted a policy of refusing to help members of the public who believe that coloured immigration should be stopped and coloured immigrants should be returned to their country of ethnic origin.

Andrew Balchin of Newham Rights Centre said the change in policy had been essential to preserve the confidence of black and Asian clients.

A white family evicted by Newham Council had to travel to Ilford to get advice after being refused help by Newham's C.A.B.

■ *A White family. Out on the streets but the C.A.B. won't help.*

END OF THE FAMILY

THE WORD *'family'* **has been banned from all housing notices and official forms used in the south London borough of Lambeth.**

The Reason: *'The terminology used in housing regarding* **"family"** *is generally assumed to mean heterosexual adults with children. This discriminates against gays and lesbians'.*

OPEN YOUR EYES

HIT BACK AGAINST THE MEDIA LIARS

ON THE FRONT page of this special issue of *National Front News*, you've read how the TV and papers always lie about the National Front. Up until now, we've only responded by printing the truth in our own publications. But that's simply not good enough. The TV and the papers can push their poison daily. At the moment, we can only print the truth on a monthly basis.

But now we can fight back against the Press and TV liars! The National Front has just produced an anti-media leaflet and poster.

The text of the hard-hitting leaflet has been reproduced on the front page of this issue. The poster is shown here.

Both the leaflet and poster are printed in dynamic red, white and black. Both are sure to be very popular items.

In order to effectively fight back against the TV and Press liars, every NF branch is expected to take 5,000 leaflets. Each group should take 3,000. Individuals should take as many as they can afford. The leaflets cost £5 per 1,000 and can be ordered by filling out the handy coupon printed below. Posters cost £1.00 for 20.

TERRORISM? – NO THANKS

THE NATIONAL FRONT condemns all acts of terrorism whoever is responsible. We believe that terrorism is **morally** wrong because it gives its perpetrators the power of life and death over their innocent victims. It is a method of political struggle which can only be used by twisted individuals motivated by hate, while we are motivated by love – love of our people, our culture and our land.

Furthermore we believe that terrorism and indiscriminate violence are always **tactically** wrong. They allow the existing Establishment, no matter how corrupt, to pose as the only protection which ordinary citizens have against the "men of violence".

As long as there are any possibilities for peaceful political and cultural action, the use of violence, other than in self defence, is unthinkable for a National Revolutionary movement like the National Front. If **all** avenues for political expression are closed, direct action against tyrants is the right and duty of an oppressed nation, but there can never be justification for indiscriminate bombing and terror – whether on the scale of Coventry and Dresden, or Bologna railway station.

Even with the repression which the National Front faces, there is wide scope for legal and peaceful activity such as cadre education; grass roots community politics and in-depth local electioneering; youth recruitment campaigns, and the construction of economic and cultural alternatives to the present collapsing system.

Faced with these opportunities, there is no need for the National Front to worry unduly about Leon Brittan's undemocratic efforts to stop us marching and holding public meetings.

With North Sea Oil running out and Mrs Thatcher's economic chickens coming home to roost, the old Tory-Labour-Alliance political system is nearing collapse. Our opponents are desperate to criminalise us and smash the National Front before things get too bad, for they know that we are the only viable alternative to their misrule.

They will not succeed. We are determined to remain a legitimate political movement. We will not be provoked, but nor will we be silenced. However much we are smeared, however many National Front members are imprisoned under the Race Laws, the National Front will continue its political struggle for the rebirth of our great nation.

POLITICAL ACTION

OUR WAY FORWARD!

OVER THE LAST twelve months the National Front has made significant progress in many different ways. Recruitment, membership renewals and the growth of new units have been better than at any time since 1979; there has been a massive increase in internal political training programmes; we have acquired a number of vital and valuable assets – ranging from printing presses to video equipment, from typesetting plant to a computer.

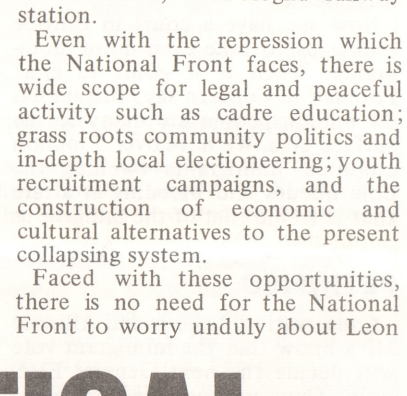
All these things are combining to make the National Front a much more effective political campaigning machine. Our publications have improved in quality, size, frequency and circulation. Our output of posters and leaflets is many times higher than two or three years ago.

This has not gone unnoticed by our political opponents. Attacks by cowardly mobs of Marxist thugs have increased and many Communists are trying to revive the "broad-front" anti-NF campaigns they used so much in the 1970's.

DESTRUCTION

Tory Home Secretary, the Zionist Leon Brittan, has introduced the White Paper on Law and Order, which would give the government the power to ban virtually all NF activities and will complete the destruction of traditional free speech by strengthening the already totalitarian Race Laws. These proposals are the result of pressure from the same powerful Zionist lobby which has so much influence in the press and television.

The hostility of the mass media to the National Front has increased massively in recent months. A concerted campaign of lies and smears has been directed against the NF by the press and T.V. They have tried to link us with terrorist groups and football violence – even though there are no such links. And in spite of our outspoken campaign against drugs, several papers have even accused us of running drug smuggling rings!



■ *Political activity – our only way.*

GROUNDLESS

All these absurd accusations have one thing in common: not a shred of evidence has been found to support any of them and the papers have quietly backed down on every one when we have challenged them. The reason is simple – they are all groundless LIES. Their purpose is clear. Our opponents in the media believe that if they throw enough mud at us, some of it will stick. They are trying to "criminalise" us – to build up a climate of public opinion which would allow the government to get the new Public Order laws passed easily, and then use them to launch sweeping and ruthless repression against the National Front. The NF is being "set up" in a trial where the press operates as prosecutor, judge and jury – and doesn't allow the defence to speak at all.

We refuse to be criminalised and are determined to continue and step up POLITICAL action to get our case over to the British public. The National Front is fighting back with leaflets and posters by the hundreds of thousands. And in this special *NF News* feature, we demolish the smears, set the record straight – and expose the anti-NF smear-mongers.

S TO MEDIA LIES

THE TRUTH ABOUT THOSE ITALIAN 'TERRORISTS'

THE PRESS AND the television have made a great deal out of alleged links between the National Front and Italian "terrorists". But look at the FACTS.

* The group of Italian Nationalist political exiles who came to Britain in 1980 faced an extradition trial in Bow Street Magistrate Court in January 1981. After hearing the Italian States's prosecution evidence against them the British magistrate dismissed the case without even waiting to hear their defence. He found that there was no evidence against them and ordered that they be set free. None of the group has been in any trouble with the police in the whole time they have been in Britain.

■ *Bologna bombing. The work of the Italian Secret Service.*

■ *Gable. Conman, crook and liar.*

* After the horrific Bologna station bombing in which 84 people died, an Italian Nationalist group *Terza Posizione* was blamed for the outrage. More than a hundred patriots were arrested. But Misumeci, the former head of the Italian Military Secret Service (SISME) is now on trial for conspiring to plant an identical bomb on another train, for which Nationalists would also have been wrongly blamed.

* After yet another train bombing last Christmas, Italy's socialist Deputy Prime Minister said that it was time to stop blaming "fascists" for these appalling attacks. They were, he said, "warnings from abroad" – either from the CIA, or from the Mossad, Israel's secret service. It is certainly true that the only "Nazi bomber" ever caught in the act in Italy was trained in Israel!

* Whatever the truth about the situation in Italy, the National Front is a British political party, run by a governing body of 18 British people, elected by the majority vote of its entire British membership. No other political organisation in the country is so democratic or is so free from foreign influence.

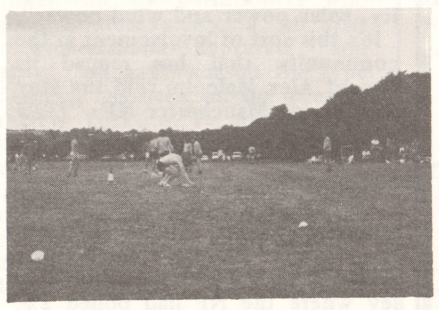
So who's telling lies about the NF?

These stories all come from the Marxist smear magazine *Searchlight*. Searchlight's leading figure is Gerry Gable. Although he poses as a reputable journalist, Gable has long established links with the Communist Party.

Gable has a long record of association with violent criminals, such as Manny Carpel. Gable and Carpel gained criminal records in 1964, when they were convicted of breaking into the flat of historian David Irving with intent to steal political material for "research purposes". Gable still boasts about his skill in such operations, but Carpel slipped up in 1981 when he was imprisoned for burning down a printworks which dared to print publications for the National Front.

Gable is a committed opponent of British Nationalism, a thug and a convicted criminal. Would you believe what he says about British Nationalists?

FOOTBALL MATCHES



TV–AM and other media smear programmes have run stories about how the National Front is supposed to hold "para-military training exercises" for its young members. But they never risked a libel action by accusing anyone directly. The truth is that our countryside seminars never involve anything more physical than games of football. Nothing illegal ever takes place.

POLITICAL LECTURES

The National Front's political programme includes Young National Front camps. Searchlight and the gutter press say these are "bomb schools", but they have never produced any evidence at all to back up these wild claims. And the police have never shown any interest in them. Why? Because they know that the lectures and discussions concern National Front policies and ideology. Nothing illegal is ever discussed.

Find out the truth about the National Front

HERE'S WHAT WE STAND FOR!

WHY IS the System frightened of the National Front? Why do they constantly have to lie about our aims and objectives? Why do they always smear our name?

These three questions can be answered very simply.

They are scared because we are a completely new force in British politics. We don't conform to their cosy 'left-wing, right-wing' System. And we are not just another political party. We are also a Spiritual and Cultural movement.

Detailed below are our main principles. They are what we are fighting for. They represent our struggle.

And, in the end, we will WIN!

THE NATIONAL FRONT is the movement of British Racial Nationalism. It is committed to the preservation of the national and ethnic character of the British people and recognises that the Nation must be of exclusively European and predominantly British racial descent.

THE NATIONAL FRONT is a Distributist movement, in that it believes in the concept of widely distributed ownership of property. As such, we are opposed to Capitalism and Communism because they both lead to ownership and control by the few.

Our aim is to give as many British people as possible a direct stake in their place of work. Consequently, we are opposed to the Stock Exchange which we would abolish, and multinational companies which we would dismantle.

We are in favour of small businesses, partnerships and Workers Co-operatives. We believe this will help restore craftsmanship, pride in one's work, and the re-birth of healthy cultural values.

THE NATIONAL FRONT believes in the right of the British people to national self-determination. Consequently, we believe Britain must seek to have a totally independent capability to defend itself against any aggressor nation, and thus we are opposed to any foreign bases on British soil. We would withdraw from any internationalist bodies which claim or seek to have powers over the British Nation.

THE NATIONAL FRONT believes that it is morally and economically wrong – and politically dangerous – for credit to be created by private institutions as interest-bearing debts. Consequently, we believe in the nationalisation of the banks and that the right to create credit should be solely vested in the government, and be spent – and not lent – into circulation.

The National Front advocates the cancellation of those parts of the National Debt and foreign debts incurred through the fraudulent creation of credit by international finance.

THE NATIONAL FRONT believes that modern man has been uprooted from the soil and placed in an artificial concrete world where he has become a materialist wage slave.

A major return to the land is essential for the cultural, spiritual and economic health of the nation. For the same reason, we would foster respect for nature and end the destruction of our environment by the 'pollute for profit' greed of industrial society. It is up to us to build a Britain where the people are united by the bonds of blood and soil.

THE NATIONAL FRONT believes in the preservation of our cultural heritage and the encouragement of our own folk cultures. We view the importation of alien cultures, languages and 'Americanisms' as a threat to our national identity.

To: NATIONAL FRONT, 50 Pawsons Road, Croydon, Surrey CRO 2QF. (Tel: 01-684-0271).

SEMINAR IN THE COUNTRY

MORE THAN thirty National Front members attended a very successful weekend training camp at the end of May.

Early on the evening of Friday, May 24th two mini-buses left central London bound for the heart of the English countryside where the camp was situated. Members attending came from as far apart as Scotland, Blackpool, Stoke, Norwich and Devon.

On arrival, tents were pitched and a campfire social was held before members retired for the evening.

On the following morning most members went for a run through the local countryside while the rest stayed behind to cook breakfast.

TALKS

After this a number of talks on policy and organisation were given and questions were asked by the audience of the speakers.

Following the talks members went to a nearby football pitch where an 11-a-side match was held before lunch in a local pub. More talks followed in the afternoon, followed by a three mile walk to another local pub. A campfire social was held later the same evening.

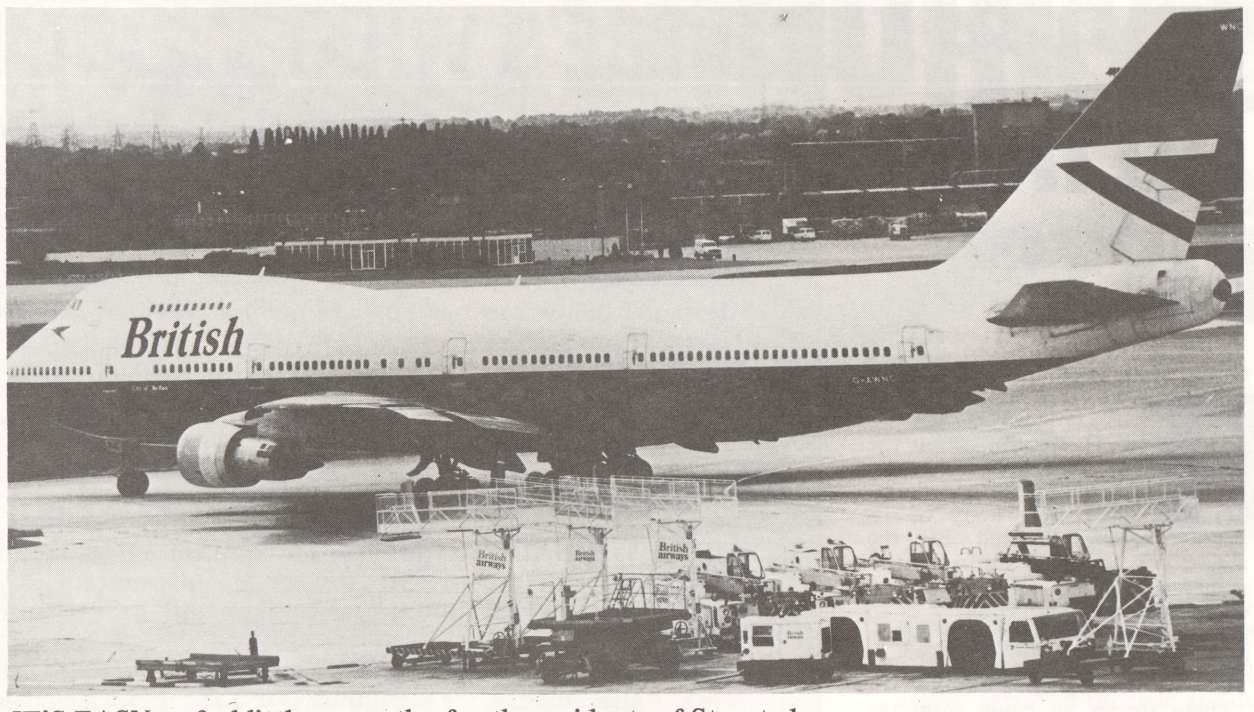
Rise and shine campers!

On the Sunday a similar format was followed with a number of informative talks on NF strategy and ideology being given by the speakers. At lunchtime, however, members made their way to the local beach. Some members chose to amble through a local nature reserve while the rest played football on the beach.

By the time that the mini-buses returned to London on Sunday evening everybody was exhausted but highly contented with the weekend's activities.

Anybody interested in attending future seminars should contact Joe Pearce at 50 Pawsons Road, Croydon, Surrey CRO 2QF.

NO POINT TO STANSTED!



IT'S EASY to feel little sympathy for the residents of Stansted as they campaign against the siting of a third London airport there. Their opposition seems tainted by that most traditional British vice – Hypocrisy.

Just as everyone takes electricity for granted, but no-one wants a power station on their doorstep, so everyone appreciates convenient airport facilities, providing they're built in someone else's village.

NF News wonders if any of the worthy citizens of Stansted have ever not gone on a foreign holiday because of a principled concern for the environment around Heathrow Airport.

Tory MP's epitomise this hypocrisy. They all welcomed the announcement that Stansted was to become London's third airport because of the alleged economic benefits it would bring, all except those Tories with seats at risk in the Stansted area, who suddenly developed a deep concern for the local environment, and professed fears at the urbanisation of rural Stansted.

The possibility of opening a fifth Healthrow terminal was similarly generally welcomed by most Tory MP's, but surprise, surprise, the dozen or so Tory MP's around Heathrow opposed the scheme.

Despite this there are a number of good reasons why a third London airport should not be built at Stansted.

* The increase in local economic activity, and hence enployment that an airport generates will be in the already comparatively prosperous South-East. Trade, investment and jobs will be further diverted away from the regions.

* Environmental damage would be substantial. Thousands of acres of fertile farmland will be lost, as runways, terminal buildings and connecting road and rail links sprawl over the countryside.

With a planned throughput of 15 million passengers a year congestion and noise pollution will be substantial.

Local developers are now pressing to be allowed to build up to 17,000 houses in the area. The opening of Stansted will mean the urbanisation of yet another rural area.

* Is another airport necessary? A development authority set up in the early seventies to oversee the creation of an airport at Maplin Sands was abandoned in 1974 – the then Labour Government having realised that the development of wide-bodied jets made the project unnecessary at that time.

By the end of the century it is highly likely that short take-off and landing aircraft will have been developed sufficiently to make airports such as Stansted increasingly obsolete.

THE NF ALTERNATIVE

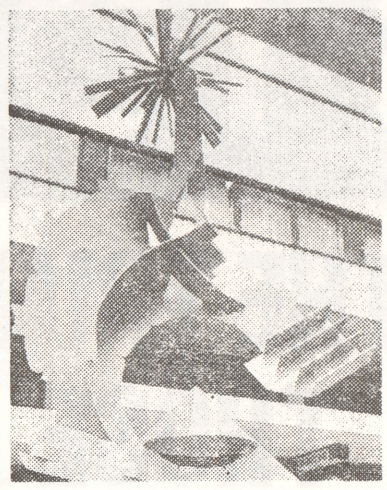
National Front News says no to a third London airport at Stansted. The millions invested in Stansted would be better spent on the development of regional airports outside the South-East of England.

This would give the maximum economic benefit for the minimum environmental cost, because :–

* Development could be concentrated in 'blackspots' where industry is currently depressed and unemployment is high. There are many areas in South Wales, the West of Scotland and the North of England, for example, which would get a significant and much needed economic boost from the development of their local airport facilities.

* Environmental damage would be minimised. Fewer new runways would need to be constructed. Instead money would largely be spent on improving the passenger handling facilities of existing airports.

RUBBISH



"RUBBISH" AND *"What a waste of ratepayers' money"* was the people of Manchesters' reaction to the unveiling of the towns latest statue.

It's a 18ft creation in multi-coloured metal and cost Manchesters' ratepayers £13,000. It's the work of London sculptor Jane Ackroyd and adorns the pedestrian precinct at Market Street and St. Ann's Square.

RELATE TO

At the unveiling ceremony Manchester Council highways committee chairman, Coun Dennis Allen said, *"We have plenty of soldiers, sailors and people on horse back, so we thought we would have something the people of Manchester could relate to".*

The statue, called the Little Prince, is *junk.* At a time when our pensioners are really feeling the squeeze of this Government's policies it's a scandal that a Labour controlled council can squander £13,000 on such *junk* and it's an insult to the people of Manchester to claim they can relate to such a waste of public money.

★ ★ ★

Local Branch Campaigns on Real Issues!

WHILE THE Labour Party in Manchester spends its time erecting lumps of twisted metal in the town centre, Manchester National Front has been working within local communities aiding and supporting many local campaigns which *really* affect the people of Manchester.

Recently they lent their support to the Lumns Lane Action Group which is campaigning against the dumping of dangerous toxic substances near a highly populated area of Manchester.

NF organiser, Alex Malcolm, told the *Manchester Evening News,* "The National Front is totally opposed to the use of nuclear energy in its current dangerous form and is therefore opposed to the dumping of waste, especially in areas of high population. The NF would like to see more research into the production of alternative forms of energy such as wave power, hydro-electricity, solar power and wind power".

It's this sort of involvement in the community that has reaped its reward Alex Malcolm told the May meeting of Manchester NF. *"1985 has been a good year for the Manchester Branch with record attendances at the monthly meetings".*

At the same meeting branch chairman Bryan Nylan thanked those people who had helped in the recent council by-election in Blackley where the NF had polled 2%. *"Although our vote was relatively small the number of enquiries and new members gained by our campaign has justified our decision to stand".*

DOUBLE STANDARDS

THE BISHOP of Liverpool's views on the 'Evils of Racism' could easily be likened to a eunuch flashing away in a park. You know, plenty of exposure but little support.

For David Sheppard's ten year ministry in Liverpool has been continually punctuated by large dollops of gratuitous endorsement for Britain's enforced multi-racial society, support which the media men have naturally pounced upon. But those same newsmen are downright averse to testing the Rt. Reverend's allegedly representative pronouncements by putting them to the man-in-the-street. How very peculiar.

ABSENT

Rev. Sheppard is widely reckoned to be a fair-minded liberal, a label which the man himself doesn't challenge. Yet this purported liberal trait was decidedly absent when he stood amongst a picket of hysterical hybrids outside of a meeting of British nationalists at Liverpool's Adelphi Hotel in April 1984, and declared to waiting reporters that he didn't believe that such people "should have been allowed to meet in Liverpool".

However the ex-England batsman was liberal enough not to oppose a march through Toxteth by the IRA.

With such double standards it's no wonder that David Sheppard and his ilk's race-mixing message has no effect on the indigenous population.

IN THE TROUGH: *Tories feed the bankers*

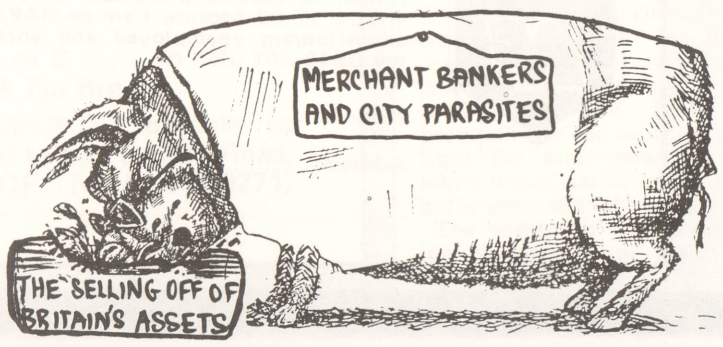
MARGARET THATCHER'S headlong dash to sell-off British Gas as fast as possible has nothing to do with political principles or even hard economics. It is being rushed through so that the Conservatives will have the money to be able to announce a cut in income tax just before the next general election.

This rush will, no doubt, mean that a valuable national asset is going to be "flogged off" just like British Telecom, Amersham International and the others. Who will benefit? The British people won't, only a small minority have the spare money to buy shares. The annual income to the state of about £1,500 million will be lost and that can only mean long term higher taxation.

GROW FAT

As usual the only people to benefit will be the rich, the City investors and, of course, the Merchant Bankers who will grow fat out of handling the sell-off. The sale is expected to raise between £5 billion and £8 billion for one of the nation's most valuable assets. There is little to then prevent foreign influence affecting the policies of this vital industry.

Another casualty of this and other sales will be British industry generally. The investment capital being sunk into these national industries might have otherwise gone to those sectors of British industry that are starved on investment. This specifically includes Britain's high technology industries which are losing out at a distressingly fast pace.



BRITISH AIRWAYS

This will be made worse by the proposed sell-off of British Airways, one of the world's most profitable airlines. This may however now be delayed by a legal action being brought against the company by Tiny Rowland's Lonrho company. We could even end up with the supreme irony of Tiny Rowlands, by preventing the sale of British Airways, actually doing something of benefit for the British people – and that really would be something new.

NOT CRICKET

POLICE ARE investigating a claim by a black footballer that he was subjected to an abusive, racial remark from another player during a Yorkshire league cup final between Driffield North End and Old Highway man.

WORRIED ABOUT THE JAPS

BRITISH LEYLAND'S engineering capabilities will be seriously undermined if the Government gives the go-ahead to an initiative of the Japanese firm Honda to supply Austin Rover with engines for a Metro replacement.

The proposal is part of a "collaboration' deal between BL's Austin Rover and Honda which also includes the assembly of Honda cars at Cowley, Oxfordshire.

Victory in Burma 1945. Who really won?

Japan's 'engine initiative' is a deliberate move to scupper British Leylands £250 million corporate plan for a new generation engine. Honda believes that its offer will appeal more to the Government because it saves money.

DEATH KNELL

Save money in the long run maybe, but it would also ring the death knell for the British car industry. May 1985 saw the share of the market for imported cars rise to 59%, 3.3% more than last year. The creeping tide of foreign cars in Britain means the creeping tide of unemployment in the British car industry.

The National Front believes that British cars should make up 99% of the British market. People who want to drive foreign-made cars would be welcome to do so but they must expect to pay through the nose by means of import levies for that privilege.

The health, welfare and prosperity of large areas of Britain depend on car industry, that livelihood must be protected by the most stringent of import controls.

★ ★ ★

SUPPORTING THE car industry is obviously not in the mind of many of Britain's politicians according to the findings of a recent survey. 104 (44%) of 235 cars parked in the MP's car park at Westminster were foreign made, while civil servants at the Ministry of Defence have been issued with Ford Granada cars made in West Germany.

HERON UNDER THREAT

HERONS ARE dying on one of Britain's most beautiful rivers because of pesticide dumping.

For during the first few days of June, fourteen herons have been found dead on the River Avon, near Evesham, in Worcestershire, and high levels of the pesticide, dieldrin, have been discovered in the bodies of three herons.

The Royal Society for the Protection of Birds, believes that some dieldrin was dumped in the river. Now the RSPB is visiting other sites in the area to collect egg shells and fish for analysis.

Additionally, the RSPB is very worried because dieldrin has been banned in agriculture since 1975. It almost wiped out some British birds of prey in the 1960's.

BRANCH LIAISON REPORT

NF

by Ian Anderson

FIRSTLY, an apology, in the list of the 59 units of the NF on page 8 of the last issue of *National Front News*, we left out three units. Mark Cotterill has phoned in to remind us that Torbay Group had seventeen people at its last meeting even though it has only been three months since the group was formed.

Somehow I managed to leave out Belfast Group as Organiser, Jim Morrison, was quick to point out. As I am visiting Belfast shortly I am still not sure how I managed to omit that unit. Lastly I managed to leave out Enfield and Haringey Group who continue to excel at gaining local publicity. They are also getting very good turn-outs for their regular weekly leafletting sessions.

GREENWICH

One new addition to the list is Greenwich which has over the last month or so been gaining a steady flow of new recruits and they now have their first meeting coming up over the next week. This takes the total number from 59 upto 63 functioning units of the National Front.

In the West Midlands progress is still being maintained in refurbishing the office in Birmingham. The office part is now largely finished and now the bookshop and other areas are being tackled. We're all looking forward to a good party, when everything is finished.

BOLTON

I recently travelled up to Bolton for the North West Regional Council Meeting which was combined with the inaugural meeting of the Bolton Group. As soon as they register with the office we will be able to add them to our list. The meeting was a great success with the main speech being given by an American visitor to Britain. He faced considerable questioning, after his excellent speech, about the progress and policies of American nationalist groups.

Over the next few weeks I'm visiting units in all four constituent nations of the United Kingdom and I look forward to giving a report on this trip which will disprove the lie that we are an 'English Nationalist Party'. The National Front is a British Nationalist Movement in both ideology and in our support.

Forgotten but not gone! Jim Morrison and Belfast National Front.

ULSTER: ANOTHER SECTARIAN MURDER!

THE MURDER of Pat Kerr earlier this year in Armagh marked a turning point in Ulster's bloody history. For Pat Kerr was a Catholic – and he was murdered by the self-appointed 'protectors' of the Catholic minority in Ulster, the IRA.

His murder spotlighted the fact that the IRA have increasingly turned their attentions to Catholic Loyalists.

Pat Kerr is not the only Catholic the IRA have killed. His crime was that he was a prison officer. Other Catholics who have been members of the Royal Ulster Constabulary and the Ulster Defence Regiment have also been slaughtered by IRA mudering bastards.

By their actions, the IRA have shown that they have no respect for life. Protestant, Catholic, Soldier, Civilian, Briton or Irishman – all are 'legitimate' targets according to the IRA.

MONUMENT

But whilst all this goes on, the Tory government doesn't do anything. If the government can't – or won't – do anything to stop the IRA's campaign of Red Terror, the least they can do is erect a monument, in memory of all those killed by the IRA.

IRA bomb victim. NF News *calls for a monument to be erected in their memory.*

On Reflection with Ted Budden

Missing Millions

AN INVESTIGATION INTO political indoctrination in schools, sponsored by the 'Salisbury Review' (the magazine that gets Bradford headmasters into trouble), has come to the conclusion that it is widespread.

Nothing surprising about that.

What is surprising, however, is the remedy they propose.

It is suggested that educational courses with a biased political slant should be clearly identified as such be requiring those who benefit from such indoctrination to pay for them. This would be done by means of block grants from organisations such as the unions, Militant Tendency and the **National Front.**

SWIPE

This unfortunate tendency among terribly right-wing Toryish persons to demonstrate their impartiality by balancing their attacks on the Left with an oblique swipe at the National Front has really let the cat out of the bag.

Nor has it gone unnoticed.

Rex Crud, ace investigative reporter for the 'Daily Mammary' writes; "So the truth is out! At last we know what's wrong with our education system. Throughout the length and breadth of our fair land innocent kids are daily having their young minds warped by phoney patriotism instilled by underpaid teachers who have succumbed to the lure of NF gold. Day by day the insidious NF propaganda is turning those fine young kids away from the high ideals of the multi-racial society for which Mr & Mrs Average Briton fought and died in the last war.

"So where does the NF get the vast funds to corrupt our education system, to bribe Asian Councillors, to send thousands of football hooligans abroad to destabilise Lichtenstein?

GOLD PLATED

"I went to their palatial suite of offices at swanky Pawsons Road in fashionable North Croydon to ask them. They threw me out.

"But I saw plenty. The valuable antique furniture. The gold-plated corrugated iron. The whole place fairly reeked of opulence.

"So how does the NF fuel its great engine of evil? Your guess is as good as mine, but the whisper among informed sources close to international expert Gerry Gable is that it is loot from Martin Borman's Paraguayan silver mines.

Black Imagination

AT the inquiry into the tragic fire at Bradford City football ground, it was alleged that Daily Star *reporter Ian Trueman (strange name, this, for a Fleet Street scribe) had "allowed his imagination to run away with him" when he claimed that he had seen a smoke bomb thrown into the stand.*

A bit hard on Mr Trueman. Complaining because a newspaperman lies is a bit like denouncing a chimney sweep for being sooty.

Nevertheless, it does demonstrate just how far the standards of Fleet Street have declined recently. Your modern reporter is just as likely to be the product of some third-rate polytechnic whereas in the good old days they were all, without exception, men with honours degrees in Applied Mendacity from the Ananias College of Journalism.

Such masters of the craft would have chided Ian Trueman, not for his excess imagination but for his moderation. They know only too well that when a reporter lies, as reporters must, the lie should be a real whopper and preferably a whopper that the Establishment will find congenial.

FLAME THROWER

Now if, for instance, Mr Trueman had reported that he had seen a National Front member throw a smoke bomb or, for that matter, attack the stand with a flame thrower, would he then have been believed?

Why, yes! Yes! Six million times yes!

Sporting Type

WHEN I viewed, with mounting horror, the scenes at the European Cup Winners Cup Final, I felt an instant pang of sympathy with John Smith, Chairman of Liverpool FC. Here was a man in charge of a club with a long and honourable tradition; a man recently appointed Chairman of the Sports Council; through no fault of his own disgraced by an inebriated band of anarchic nerks.

SQUIRT

The sympathy was short-lived however; dispelled in a flash when the shifty-eyed little squirt tried to wriggle off the hook by shifting the blame on to the National Front.

Why yes, he was sure the trouble was led by NF supporters. Yes, he knew the type. They had Southern accents. On and on the lies dripped out of the odious, squirming little wretch.

Naturally, all of the newspapers, especially the "quality" ones gave massive coverage to the foul Smith's lies. No doubt they will all, in due course, give equal prominence to the matter when those lies are exposed as such.

Surely of all the seven deadly sins, bearing false witness is the most evil. By trying to heap the blame for his own misfortunes on people who are entirely blameless, Smith has shown himself to be unfit for any office let alone that of Chairman of the Sports Council.

SOLDIERS VOTE WITH THEIR FEET

NEARLY 35,000 men and women left the Armed Services last year, 11% up on the previous year. Amongst the senior ranks the position is fast becoming critical. In the British Army on the Rhine 28 colonels left in 1984, so far 45 have left this year.

Since the Falklands War the morale of our armed forces has been steadily sliding downhill. Pay has been held back and this year many servicemen stationed abroad are actually going to get a pay cut because of increased charges for services. A private serving in West Germany will actually receive less take home pay than he did in March 1982.

The outflow of experienced men and women will reduce morale still further and much, if not all, of the responsiblity for this must be laid with Michael Heseltine and the civil servants within the Ministry of Defence.

While "Tarzan" Heseltine wows the old ladies of the Tory Party he is hated by many serving officers who believe he doesn't give a damn for their welfare and that he has exploited their loyalty and dedication.

BETRAYING

British servicemen demonstrated their courage and ability in the Falklands War, now the Conservatives are betraying those men who fought for their country while the politicians and civil servants stayed in their cosy Whitehall offices. Our servicemen and servicewomen deserve better and must be treated better if they are expected to defend this country – sometimes with their lives.

LABOUR APPLAUSE FOR I.R.A.

THIRTY MEMBERS of Brighton National Front were joined by two Front members from Belfast in a noisy demonstration outside Brighton's Pavilion Theatre to protest against a meeting in support of the IRA organised by Brighton Labour councillors.

Just eight months since they blew up the Grand Hotel the IRA were back in Brighton dancing on the graves of those who died in the tragedy. Sinn Fein activist Daisy Mules told a packed audience of applauding Labour Party members that she stood by the actions of the bombers.

Police were out in force and were called into action by Labour Party stewards who refused entrance to some members of the public who were believed to be NF members. The organisers then decided to change the public meeting into a private one and the *'Front members'* were asked to leave.

LAWS AGAINST 'QUEST FOR THE TRUTH'

THE CENTRE for Contemporary Studies is campaigning for a new law of 'group libel' to combat the growing lobby of historians and historical societies who believe that the Second World War extermination of the Jews never took place.

The CCS is calling for a highly *"orchestrated campaign"* for this new law. A law which will mean that only one accepted historical account of the *holocaust* will be allowed and this will be protected against critical challenge.

The Centre of Contemporary Studies obviously believes there is something to hide concerning the *'holocaust'*, such suppression is solely designed to hinder the quest for truth regarding the events of those alleged 'exterminations'.

★ ★ ★

THE CENTRE for Historical Review has made great strides over the last 12 months in promoting discussion concerning certain events of the last war. The CHR can be contacted at P.O. Box 228, Manor Park, London E.12.

TAX CUTS FOR THE RICH: COURTESY OF THE WELFARE STATE

Thatcher: Let them eat cake.

THE PEOPLE WHO can least afford it are going to have to pay the price for the failure of government policy. Faced with an economic crisis of its own making, Thatcher's Government demands sacrifices – and it seems that the sick, the poor, the old, the jobless and the disabled are being comdemned to face further hardship.

With 3½ million unemployed and with tens of millions of other Britons – such as the pensioners, low paid, disabled and single parents – relying on state benefits to make ends meet, the annual cost of the Welfare State is some £40 billion. The Tories have decided that this is too much and have just released a Green Paper outlining how the social security system is to be changed and how savings are to be made.

The Green Paper makes grim reading for millions of claimants. How will it affect you?

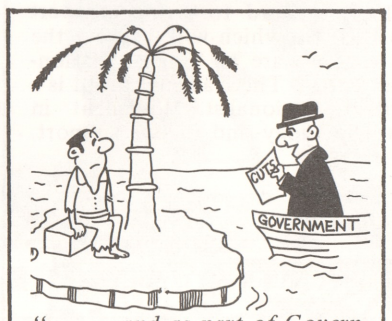
* **THE UNEMPLOYED.** If you are unemployed and are currently receiving Supplementary Benefit you stand to lose several pounds a week. Supplementary Benefit is to be replaced by something called Income Support. Under SB the claimant receives a 100 per-cent refund for their local authority rates and water rates. But under Income Support you will be responsible for paying the total amount of your water rates ands 20% of your local authority rates.

Many people on SB – those who suffer from poor health, or who live in accommodation which has central heating or is damp – receive a heating allowance which ranges from £2.10 to £5.30 a week. This is to be scrapped.

There is also bad news for unemployed houseowners. The Tories are thinking of ending state aid to help cover mortgage interest payments.

And if you are single and under 25 you will be in equally dire financial straits: you will be having over £5 a week deducted from your future Income Support giro.

* **THE LOW PAID.** Like the unemployed, the low paid will also be badly hit by the Tories welfare cutbacks. Substantial cuts in Housing Benefit will mean that some 3.75 million people will no longer receive any help towards meeting the cost of their rent and rates. And children from low paid families will no longer by eligible for free school dinners and milk.



" . . . . and as part of Government cuts we want that palm tree and the box you're sitting on".

* **PENSIONERS.** Many pensioners will find themselves out of purse or pocket because of the cutbacks in Housing Benefit. The scrapping of the heating allowance will mean that even more will find themselves worse off. Each year thousands of our old folk die from hypothermia because they cannot afford adequate heating. When you bear that in mind, the ending of the heating allowance is nothing short of a criminal act.

Many elderly people also suffer from ill-health. At present they receive some financial assistance to help them out. For example: diabetics are entitled to extra cash because they need a special and more expensive diet. But under the new proposals all such extra payments are to come to an end.

* **THE DISABLED.** At present people with serious disabilities are entitled to a whole range of extra benefits which can add over £20 a week to their basic Supplementary Benefit rate. But all this is going to change and instead they will only receive a miserly extra £4.30 a week.

This social security review is the latest and most vicious attack by the Tories on the Welfare State. In the past six years the Thatcher Government has already cut benefits by nearly ten thousand million pounds. That is enough to give every pensioner an extra £76 per week, or every unemployed person an extra £54 per week, for a whole year.

Yet at the same time, the Tories have given £12,780 in tax handouts every year since 1979 to people who earn over £50,000 a year.

VICTIMS

Thatcher and her cronies argue that we cannot afford the Welfare State and that people must be prepared to provide more for themselves. But no one can help growing old and infirm. People are not disabled by choice. And the overwhelming majority of the unemployed are jobless through no fault of their own. They are the victims of successive government's economic policies.

Thatcher may argue that we cannot afford the Welfare State . . but she is prepared to waste billions on unnecessary, ineffective and over-priced Trident nuclear weapons system; in payments to the Common Market, and in tax cuts for the rich.

The Tories obviously have their priorities – and we have ours. WE DEMAND JOBS AND SOCIAL JUSTICE FOR THE BRITISH PEOPLE!

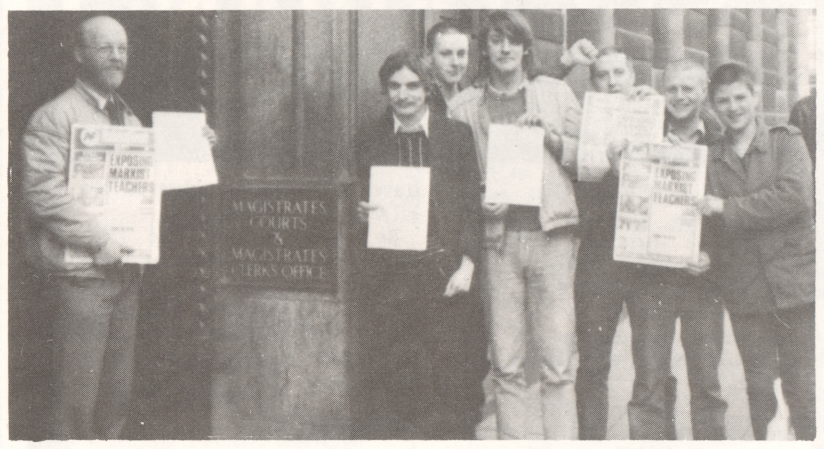
POLICE BOAST OVER NF ARRESTS

by Our Man on Tyneside

IF ANY OF our supporters on Tyneside were still kidding themselves that the police are unbiased or neutral in their approach to the National Front they were finally brought back to reality this month.

Following pathetic allegations in the national and local press recently by TUC regional secretary Bob Howard the police showed where they really stand. Mr Howard claimed that 'small well organised Fascist groups' were deliberately inciting racial hatred at St. James' Park and furthermore that the police were turning a blind eye to these activities.

Now I do not for one moment believe that Mr Howard is accusing anyone but the National Front in his statement and indeed this is bourne out by previous statements he has made, the thing that surprised me, yes even after the miners strike, was the reaction of the police.



Race Act Charges. Newcastle NF members still defiant.

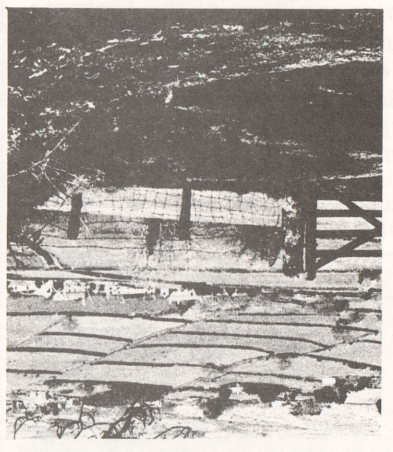
Instead of treating the claims with the contempt they deserve and filing them under 'crank' in the files, the police adopted a 'but we are doing our bit to stop the nasty National Front' attitude. They boasted in their statement to the press that they are prosecuting four young men for 'distributing threatening, insulting or abusive literature' outside St. James' Park, by this they mean four NF activists selling *NF News*.

THEIR PEOPLE

Now the National Front are becoming used to attacks of this sort and we have not lost sight of the motives behind them. The North-East is traditionally a labour stronghold and many of the young people in Newcastle who buy NF literature regularly and attend our meetings or activities would once upon a time have been regarded by the Labour Party as 'their people'.

The failed and discredited politics of the past hold no attraction for the vast majority of young people, the Labour and TUC movement on Tyneside are beginning to realise this and the possibilities frighten them . . . This is not to say that the Tories are keeping quiet up here though, they too are beginning to squeal and indeed they set up the 'Tyneside and District Anti-Fascist Association' in collaboration with Labour councillors. Who says the rats are so different?

PROTECT THE GREEN BELT



STRONG OPPOSITION to plans for 15 new country towns in the South-east – proposed by a consortium of house-builders – was voiced at a conference at the Royal Town Planning Institute in London.

The RTPI organised the one-day conference – held on 13th May – to hear views of Consortium Development proposals. (Consortium Development is comprised of the 10 biggest building companies in Britain.)

OPPOSITION

Most of the opposition came from representatives of Serplan – the standing conference of local planning authorities in the South-east, the Greater London Council and Manchester County Council.

The National Front also opposes Consortium Developments proposals. We are stridently opposed to the concept of mass urban living – and would favour a return to the land and the re-establishment of rural communities.

These rural communities should be evenly distributed all over the UK – and not concentrated in the South-east of England.

Such a movement away from the cities would also serve to strengthen Britain's cultural, spiritual and economic health. And such a move should not be treated as an optional extra. For ruralism would form one of the cornerstones of a future Nationalist Britain!

The 'Dirty Dozen' Threatens You

THE PESTICIDE DDT, banned in Britain last year, is still being sprayed illicitly by farmers.

That was the claim made by Friends of the Earth on 4th June.

The environmental pressure group also said that it would produce evidence of DDT's illegal use, as part of their worldwide campaign to end the manufacture and trade of the 'dirty dozen' pesticides which put people, animals and the environment most at risk.

(The 'dirty dozen' pesticides in question are: DDT, 245–T, chlordane, paraquat, camphechlor, ethylene dibromide, chlordimeform, DBCP, lindane, parathion, pentachlorophenol and the chemical group known as the 'drins,' dieldrin, aldrin and endrin.)

As a ruralist movement, the National Front completely supports Friends of the Earth's efforts to stop these deadly chemicals from being used. We look forward to the day when the 'profits before people' ethic comes crashing down and is replaced by a revolutionary new society which honours, not spoils, the land.

NEW DATE FOR RAC SUMMER FESTIVAL

Due to circumstances beyond control of the organisers, the Summer Festival has had to be put back until August.

All tickets sold are valid for the new date. Phone 01-684-0271 for further information.
